Chinese Fishermen from San Francisco

Washington, Nov. 23,-The horrith conditions existing among the Chinese which has just been made to the Ma-

He rays a number of vessels have returned to San Frencisco from the Al-Feb. 13 eral deaths of them Chinese workers There were no physicians aboar i.

tainable from the responsible persons. "These vessels," says the report, "sail

from San Francisco in March and April, each vessel taking about 125 Chinese to work in the canneries. Last spring nearly 3000 Chinese were taken from San Francisco for this work. Bubonic plague was known to exist in their section of the city at the time of their leaving, but no praceutionary measures to prevent an outbreak among them were taken."

The assistant surgeon says he has been unable to arrive at a definite conclusion as to the true nature of the disease, as the symptoms, while resembling them, are not entirely those of either scurvy or beri-beri. The disease probably is one of malnutrition, resulting from exhausting labor, poor These Chinese are recruited from the poorest and roughest element of Chinatown, and are held in practical slavery by the Chinese bosses who provide this labor.

They are often worked eighteen hours a day and live in barracks in utter disregard of cleanliness and sanitation. The fish they eat is frequently well advanced in putrification. It is difficult to conceive fully the filthiness aboard.

The Chinese quarters are dark and damp, and the sanitary conditions are unfit to print. The white men on these vessels disclaim responsibility for the conditions under which the Chinese live and transact all business with them through a Chinese foreman, the so-called "No. 1 Man."

Five thousand of these Chinese re cently have come into Chinatown, San Francisco, and with their lowered vitality would fall ready prey to plague, cholera, or any infectious disease, and thus menace public health. It is urged that these coasting vessels be made subject to the same laws as vessels en suged in deep sea voyages.

RECORD HALIBUT CATCH

Vancouver, B. C., Nov. 26 .steamer New England has arrived in Vancouver from the British Columbia halibut banks with 120,000 pounds of halibut. The halibut were caught in one day and part of a night. The Ne-England Fish Company, owners of the steamer, claim that this is the largest catch of halibut ever made in the world by one crew in the same length of time The catch was made in very rough weather, and a large amount of fishin, tackle was lost. The fish were driver in by the storm and were being booked so fast for eighteen hours that the fishermen were completely exhausted hauling the big flat monsters into their dorles and clubbing them to death. Th New England's record cargo of halibut was shipped through to Boston today by refrigerator cars.

SHIPPING NOTES.

The Geo. D. Curtis turned her none towards the Coast Thursday with lu a cargo of sugar comprising 3,050 tons. She has four passengers who were given quite an ovation by their friends Curtis is quite popular here among the younger set.

The army transport Aztec which was vember for Manila, was delayed for another day or two on account of the failure of the 400 mules and horses to arrive from the country. The loss of the mules on the transport Leelanaw makes it all the more necessary that the animals to be carried by the Aztec should arrive in good condition in the Philippines,-Chronicle.

Although no visitors were supposed to be admitted to the new steamer Sierra upon her arrival in San Francisco, the vessel was inspected by many persons, and all expressed admiration over her fine appearance. The work of cleaning the Sierra and painting her has been done, and by December 12th she will sail for Sydney on her first trip. Nearly all of her staterooms have been engaged for the trip. In tonnage the Sierra exceeds the Pacific Mail steamer China, being 3756 net, She will leave San Francisco with a full cargo of freight as well as with a full list of

miles from Rouen, and the usual treatment was given by the country doctor. Happening to recollect the English use of petroleum as an anti-spasmodic and an antiseptic, he determined to make an experiment and selected for his first trial a little girl, seven years old, whom he had already given up. He swabbed the throat with common pertoleum, and so marked was the improvement after the first application that the treatment was continued and the chill recovered. He then tried the experiment with success on his other pa-
